Welcome

to BBH Group

The BBH Group started as an HR consulting firm in 2020 and was incorporated by DED in 2021 as BBH Human Resources Consultancies.

And in a short period, with a team of core professionals we feel proud to say that we have a trust position in the market.

As of September 2022, Our HR Business has successfully conducted more than 120 activities including recruitment and placement, contract staffing, corporate and professional training workshops, interview preparatory sessions, and many more. Where more than 35 organizations including Government, public and private have benefitted from our responsive services.

As a consultancy outfit, we provide cutting edge services for purpose-driven corporations locally and overseas.

Driven by our mission in the course of 2 years, BBH has expanded to a group of companies cutting edges across 4 domains:

Why BBH

Our customized manpower and HR support formulas assisted companies to place the right talent for efficient and sustainable Business Operations. Yes! We at BBH support our clients in designing a sustainable HR plan, develop customized strategies and recruitment planning to enhance hiring processes and talent retention.

Manufacturing and Mechanical

Manufacturing industry mostly requires skill labor and technical staff like MEP worker and helper, Operators, Production staff etc. Our database can support you on that

Crack the Code

Some Industries brief us about their workplace problems while working with their employees. To remove this problematic workforce we have a strategy of counseling, motivational lectures and Happy Living Classes by the professional for the same field. And a result we got 5 star rating from our clients.

We recognize the social and managerial difficulty in hiring African or even getting employed as an African, for organizations and recruits.

We find the same for the Asians, Europeans and Middle-East as well in some industries or organizations.

Then we started to find out the solutions and we choose a team of professionals who spend their time with clients as they listen to their operational difficulties with the employees; and to employees also who are facing workplace issues from the management side.

So, we give the title **Crack the Code** to that Employee Management System.

We check the rudeness and unhealthy indulgence and we are always on standby with a dispute resolution protocol for worse case scenarios although they do not happen.

Now You know about us:

So, Let's handle your business

Our ethical business management team is a one-stop life-changing business solutions provider that deploys professionalism, commitment, cost-effective strategies, advanced business tools and strategic management to guarantee a smooth establishment, organizational effectiveness and the sustainability of your business in the UAE.

Some of our Esteemed Clients

Our Reach

Finally in our Words

Finally In our words..

Yes, That makes us different from the usual consultants, because our think tanks are redefining the engineering of business operations for our clients to get high returns on every investment.
